

## V-5720 SERIES

Single-ply microprismatic construction provides superior durability and long distance reflectivity.

## VEHICLE CONSPICUITY TAPE

### **Safety Means Savings**

Avery Dennison® Series V-5720 Vehicle Conspicuity Tape offers exceptional benefits and value for your fleet. By increasing the visibility of your vehicles, costly accidents are reduced which translates into lower liability payments, lower accident costs, and a higher bottom line.

### **Durability**

Constructed entirely of tough, clear acrylics, with a UV absorbing top film, Series V-5720 features superior outdoor durability and protection against weather, dirt, and time. Sub-surface printing prevents its bright red color from fading or degrading from exposure to harsh solvents or washing detergents, making Series V-5720 the most durable tape available.

With repositionable, permanent adhesive, application is easy. Series V-5720 can be easily cut and punched, making application with rivets a snap. With initial repositioning ability, this tape can be applied, lifted, and re-positioned for the first 15 minutes of application which allows for perfect placement on every vehicle.

### **Reflectivity**

Avery Dennison® Series V-5720 exceeds requirements of the NHTSA (49 CFR 571), and every strip carries the "DOT-C2" legal certification for compliance. Its modular pattern of reflective prisms allow it to be mounted in any position while maintaining reflective performance. With high reflectivity, Avery Dennison Conspicuity Tape provides the industry's highest visibility guidance in wet or dry weather conditions with full reflective strength from distances of 1,000 feet or more.

### **Warranty**

Avery Dennison® Series V-5720 Vehicle Conspicuity Tape is backed with a seven-year limited warranty.

### **Ordering Information**

For availability and specifications on V-5720 Vehicle Conspicuity Tape, contact Avery Dennison customer service at 1-800-327-5917 or contact your local Avery Dennison representative.

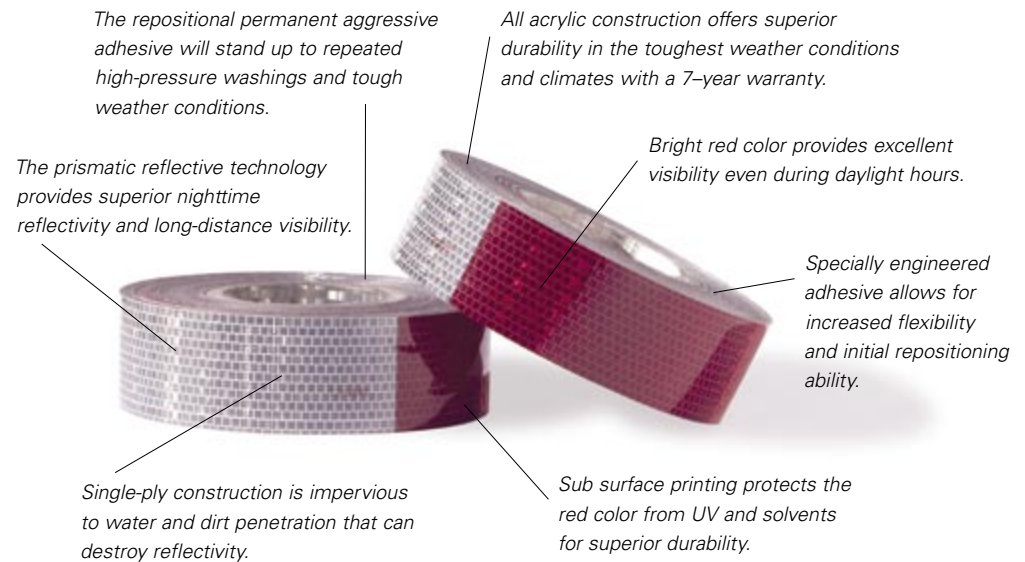

Patents Pending in the United States and Worldwide.

**CURRENT CONSPICUITY LAW**

- No less than 50% of the length on the sides must be covered with alternating blocks of red and silver tape that has a minimum width of 50mm (2").
- The rear of the trailer must have a strip of red and silver tape covering the full width.
- Tape that is not the same color as an adjacent light required by FMVSS-108 must be 3 inches from the light.
- The underide carriage must have a strip of tape with minimum width of 37.5mm (1.5") covering the horizontal member.
- Silver tape must be applied at the upper corners on the rear of van trailers and on the front bulk-head of platform trailers.

**FEATURES OF V-5720**

**HOW TO ORDER**

Avery Dennison® V-5720 Vehicle Conspicuity Tape is available in the following configurations. All rolls are furnished in 2" x 50 Yard lengths (50mm x 47.2m). Log roll and mill sizes available upon request.

Product	Description	Spec	Roll size
V 5720	White	845604	2" x 50Y
V 5720/12PC	White, Pre-cut every 12"	845624	2" x 50Y
V 5720/12	6" Red / 6" White	845703	2" x 50Y
V 5720/12PC	6" Red / 6" White, Pre-cut every 12"	845723	2" x 50Y
V 5720/18	11" Red / 7" White	845702	2" x 50Y
V 5720/18PC	11" Red / 7" White, Pre-cut every 18"	845722	2" x 50Y

Instructional Bulletins are available that reference care and handling; substrate requirements; application techniques; die cutting; computer sign cutting; screen preparation; inks and troubleshooting printing and process colors can be found on our web site or by calling a service representative.
