

STIMSONITE®

The World's Most Recognized Manufacturer of Reflective Pavement Markers

Other Surface Mounted Markers

DAY-TIME Fluorescent Pavement Markers

Excellent for pedestrian crosswalks, where high Day and Night visibility is required.

The only marker that provides safe delineation 24 hours a day, under any weather conditions.

Markers for Fire Hydrants

Model 88, mono or bi-directional.

Offers excellent visibility for fire-hydrants, when needed in times of emergencies.

PRISMO's "Contramark 2000" - Temporary

Temporary marker, with reflective film strip, for use in construction workzones.
